Claims

What is claimed is:

10

- 1. A corrosion inhibitor composition comprising:
- 5 (a) between about 90 and about 99 percent by weight ammonium benzoate; and
 - (b) one or more additive components in an amount of between about 1 and about 10 percent by weight of said composition, said one or more additive components being selected from the group consisting of silica, triazoles, and wetting agents.
- A corrosion inhibitor composition as in claim 1 that is adapted to be dissolved in water in an amount
 necessary to form an aqueous solution having about 0.25 to about 5 percent by weight of said corrosion inhibitor composition.
- 3. A corrosion inhibitor composition as in claim 1 20 that is water soluable.
 - 4. A corrosion inhibitor composition as in claim 1 being adapted to be packaged in water soluble bags.
